FCC MAIL ROOM

The Honorable Reed Hundt
Chairman
Federal Communication Commission
1919 M Street, N.W.
Washington, D.C. 20554

Reference: The FCC's Ruling in Connection with ISDN services
FCC No. 94-356 (rel. 1/11/95)

Dear Chairman Hundt,

I am writing to you as a member of the California ISDN Users' Group. I understand that the Commission is in the process of reviewing an order requiring multiple subscriber line charges (SLC) for ISDN (Integrated Services Digital Network) services. I urge the Commission to restore the single SLC for these services.

ISDN represents the logical evolution of digital networks to accommodate widespread voice and data communications on the greatest possible scale. There is an urgently growing need for ISDN type connectivity and services which are also essential in the day-to-day operations of my company, Graphics Plus.

I urge the Federal Communications Commission to restore the single SLC for ISDN services. I hope that the Commission will take all the necessary steps to allow affordable access to the wide range of the Information Age services for every citizen of the United States.

Sincerely,

Thomas D. Gleason

Chairman Reed Hundt
Federal Communication Commission
Washington, D.C.

May 28, 1995

Dear Chairman Hundt:

I am writing you to urge you to do whatever it takes to restore SINGLE subscriber line charges for ISDN [Integrated Services Digital Network].

To provide only MULTIPLE subscriber line service would be discriminating against large numbers of Americans. ISDN has the capability to reach Americans of every kind. But without it they may become isolated and grow more separatist.

Please help America to grow united by allowing freedom and ease of access to ISDN for every citizen at the lowest possible cost.

This is so important to our well-being, I would like to know your reasons if you do not support my position.

Thank you for your consideration.

Sincerely,

Sam Standring
